### Second Quarter 2009 Financial Results

For the second fiscal quarter ended December 31, 2008, net revenue from operations totaled \$11.0 million (excluding discontinued operations). This represented a decrease of 2.2% from \$11.3 million in the second quarter of fiscal 2008.

Patient care segment revenue totaled \$10.1 million, off less than one percent from the same year-ago quarter. The slight decrease in patient care revenue was due primarily to the effect of general economic conditions offset partially by the contribution of newly opened operations.

Contract support services revenue from the company's Wellplace subsidiary decreased 19% to \$0.9 million. This decrease is due to the expiration of a smoking cessation contract with a government contractor. The company has submitted a bid to continue and expand the contract should the contractor decide to continue the program. PHC expects to increase contract support service revenue through new contracts for EAP (Employee Assistance Programs) and smoking cessation programs.

Income from continuing operations was a loss of \$843,000, as compared to income of \$834,000 in the same period a year ago. The loss includes more than \$790,000 in startup losses related to the company's Seven Hills Behavioral Institute and approximately \$307,000 from startup expenses at Capstone Academy.

The net loss from continuing operations was \$404,000 or (\$0.02) per basic and fully diluted share (based on 20.1 million basic and fully diluted shares), which compares to net income from continuing operations in the same year ago quarter of \$524,000 or \$0.03 per basic and fully diluted share (based on 20.1 million basic shares and 20.5 million diluted shares). The loss includes approximately \$1.1 million in aforementioned new facility startup expenses, plus expenses related to increased utilization of capitated contracts in the company's Harmony division. Losses at Harmony are not expected to continue due to improved margins from significant rate increases from two major renegotiated contracts which became effective January 1, 2009.

### Second Quarter 2009 Operational Highlights

Pioneer announced at the end of December 2008 the final agreement for the sale of Pivotal Research Centers, which comprises the pharmaceutical studies segment, to Premier Research Group PLC for total consideration of up to \$5.0 million. The divestiture of this business will allow Pioneer to focus on its core business of delivering behavioral health programs and services. This transaction is expected to close by the end of the current month.

During the quarter, the company advanced the development of its Capstone Academy in Detroit, Michigan, and in January 2009 officially opened this

new facility. Capstone represents the next phase of PHC's efforts to provide expanded residential treatment services to adjudicated youth in the Detroit metropolitan area. In combination with the company's Detroit Behavioral Institute (DBI), this facility, if fully utilized, could double PHC's inpatient capacity in the area and has the potential to generate additional annual revenue of more than \$5.0 million. With the addition of Capstone, the company will have 14 treatment centers across five states that offer behavioral health services.

## **Management Commentary**

"As expected, this was a transitional quarter as we continued the startup at Capstone and worked toward CMS Medicare certification for Seven Hills," said Bruce A. Shear, Pioneer's president and CEO. "Excluding the startup losses of our new facilities in Henderson and Detroit, once again this quarter we continued our long tradition of operating profitably. In fact, this amount improved approximately \$234,000 over the previous quarter and improved \$388,000 over the same period a year ago."

"We also significantly advanced our managed care business in the Las Vegas area during the quarter with the renegotiation of capitated contracts which are structured to increase revenue and improve margins in this quarter," continued Shear. "As these new rates come into effect and our new facilities come more up to speed, we anticipate a return to company-wide profitability before the end of the current quarter.

"Given our progress in many areas this quarter, we continue to believe our fundamentals and prospects for growth have never been stronger. Our efforts to focus on our core business of patient care allowed us to sustain our revenue levels even in these trying economic times that have impacted other companies far more than us. Demand for our services remains strong and our industry is prospering. The recent signing of the Mental Health Parity bill is expected to serve as another strong market driver -- one from which we are in an ideal position to benefit substantially over the years to come."

#### Fiscal 2009 Guidance

Based on the continued expectation that the company's patient care revenue maintains its forecasted growth of more than 20% in fiscal 2009, management continues to see an achievable goal of income before taxes of 8-10% of net revenue as it approaches fiscal 2010.

"As we have indicated in our prior reporting," said Shear, "due to the substantial investments we have made in new facilities, we expect the most visible improvement of our performance in 2009 will come during the second half when our newest projects, like Capstone Academy, come up to speed."
